

Bayley *SERVICE INTELLIGENCE*

DRIVE EFFICIENCY THROUGH DATA

Looking for solutions to meet current service demand and grow revenue, loyalty and profitability?

Coats® Bayley Service Intelligence is the world's first smart service efficiency system designed to deliver actionable intelligence across the entire service cycle.

DO MORE

Visibility

- Capture 12 critical data points between R.O. creation and close.
- Get real time status for all vehicles.
- Improve service advisor effectiveness

Transparency

- Dynamic dashboards show status of techs, bays, and vehicles.
- Connect departments through visibility into critical operations KPIs.
- Identify bottlenecks enabling corrective action.

Simplicity

- Install in most dealerships in under a day.
- Role specific reports focus and empower service advisors.
- Visualize actionable information in real time.

ACHIEVE MORE

Improved Efficiency

Address bottlenecks, connect departments, share KPIs and optimize schedules.

Higher CSI

Provide service advisors real time job status to expedite service, communicate accurate ETAs and help technicians maximize productivity and earnings.

Increased Profitability

Turn time saved into hours turned, timely upsells, higher service volume and satisfaction, and more profit.
